Premira® Portables™

Ready-to-saturate Premira® mop pads

Premira® Portables™ and Premira® Versa Portables™ pack the power of microfiber from Contec® Professional into a lightweight and convenient package ideal for vivarium and bio-safety cabinet cleaning! Each resealable bag contains dry Premira or Premira Versa mop pads that can be saturated on demand. Simply pour your preferred chemistry directly over the dry pads in the bag – no buckets, no hassles! The bag can be resealed and easily stored in a convenient location. When paired with our lightweight ZeroGravity® hardware, Premira Portables make cleaning quick and easy.

PREMIRA® AND PREMIRA® VERSA MICROFIBER MOP PADS

Maximize cleaning, minimize effort

100% synthetic Premira and Premira Versa microfiber mop pads provide superior dirt and debris removal compared to reusable textiles. Premira and Premira Versa mop pads are made in the USA and are compatible with commercially available mop hardware. For the best results, we recommend using with any of Contec's ZeroGravity hardware.

Features
Resealable bag allows mop pads to be saturated and stored between points of use
Saturation-on-demand helps reduce both chemical waste and bulky storage
Broad chemical compatibility
Single-use design means no cross-contamination between locations
No buckets. No spills. No hassles.
